

# White Paper<sup>V2.1</sup>

## ECOIN FINANCE INTRO

We have launched ECOIN with a purpose and utility in mind.

Our development team are situated in different parts of the globe and we are 100% dedicated and committed to get this project successful and to change lives of people with big dreams.

ECOIN is our highest priority, we are here forever and here to stay, bare that in mind before investing. So if you have diamond hands and want to be a part of a growing awesome project please read on...

## ABOUT US

**Ecoin Finance** (ECOIN) is a decentralized & deflationary **BEP20** token that is powered by **BNB Chain** network (the current Binance Smart Chain) which is currently considered one of the best blockchains in the world, due to its high speed and low operating costs with low gas fee.

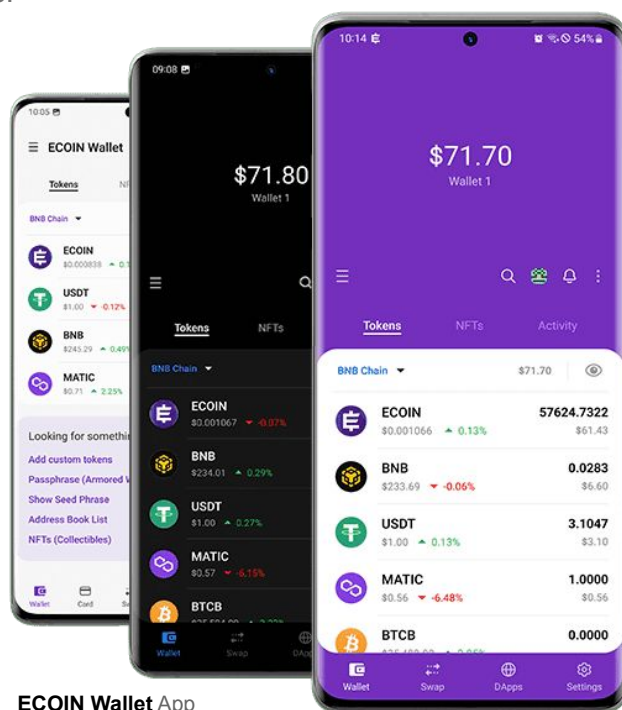

ECOIN V1 was fair launched on the PancakeSwap Exchange (DEX) officially on May 15th 2021, reaching over 50K holders in less than 6 months. On March 20th 2022, the migration to ECOIN V2 began, where a rebrand & a contract upgrade was made to better adapt to the new products of the ECOIN ecosystem.

## MAIN PROJECT

The **ECOIN Wallet** our flagship service is set to become the central hub for our online payments, seamlessly integrating with our debit card system. Users worldwide will enjoy the convenience of making swift, secure transactions using their ECOIN balance, with compatibility extended to Bitcoin and other networks.

We developed the **ECOIN Wallet** from scratch, an innovative crypto wallet for Android (iOS coming soon), recognized as worldwide pioneer in security by implementing hardware-level security support.

The intuitive **One UI** interface, developed by **Samsung**, provides a streamlined navigation for easy one-handed use. Our application stands out by offering robust security for storing, buying, and trading cryptocurrencies and NFTs, displaying transactions, balances, and secure sending and receiving functions in a clear manner.

## TOKENOMICS (8%)

Tokenomics functions by taking an 8% fee on every transaction. That fee is broken up into 4 category.

1. **3% Liquidity pool:** ECOIN V2 has a 3% fee on each transaction which is automatically processed by the contract and turned into WBNB through micro-sales, which will later be added to the liquidity pool on PancakeSwap, creating a stable price floor.
2. **2% Stake to be distributed to Holders:** Holders of our token will be rewarded simply by holding the token by the 2% reflections in other words, just by holding it, you will see the number of your tokens increase automatically everyday as the community transacts. (To be able to receive automatic STAKE from our tokenomics, the holder must have an amount above 2,000 ECOIN v2 tokens).
3. **2% Administrative portfolio:** 2% will be sent to the administrative wallet, that fee will be for marketing, expense and development related to the ECOIN token.
4. **1% Token burning:** 1% is burned automatically, which means we are a deflationary token. Current supply will decrease over time. Like any asset getting scarcer over time you would expect this deflation to increase ECOIN value.

## TOKEN DISTRIBUTION

Max. Supply: 1 Billion

### PUBLIC SUPPLY

257.189.816

### RESERVE FUND

60.369.001

### ADMINISTRATIVE PORTFOLIO

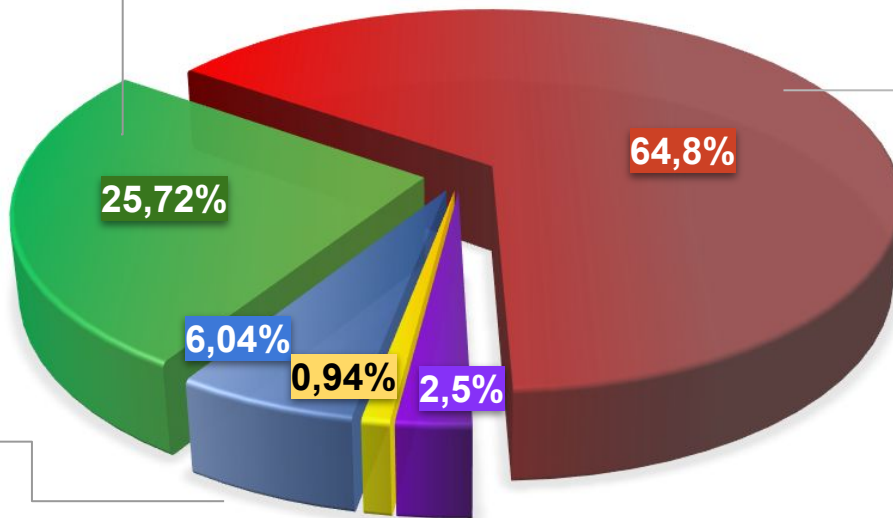

9.441.183

### BURNED

648.000.000

### DEVs

## WHAT'S ON THE HORIZON?

**We will soon unveil exciting additions to expand our ecosystem.**

More innovations from Ecoin Finance are on the way as we remain dedicated to never stop innovating. Stay tuned for updates!

## CORE VALUES

- ECOIN Wallet App (Android)
- Integrated Debit Card \*
- Contactless payment integrated on wallet app and card \*
- **A.** ECOIN token will be used to make purchases through our wallet and debit card when the app is developed and issued. Without ECOIN you won't be able to make them purchases, ECOIN will be the only crypto token that will be integrated into our payment system. So our coin/token will always hold utility and demand.
- **B.** You will be able to swap or exchange any BEP20 crypto through our wallet for ECOIN to make use of our payment features for contactless or debit card.
- **C.** There will be more utility integrated to Ecoin after this first project is completed.
- Low supply, just (1 Billion ECOIN Tokens)
- Native burn function (1% burn each transactions)
- Tokenomics 8% fee will be readjusted for prepaid card recharges once it issued.
- Diamond hands holders will be rewarded through tokenomics for holding.
- Doxxed DEV's.
- Without big wallets, all the big whales are out and the other wallets are well diluted.
- Ecoin Finance won't stop here, Once our products are released, we will continue to add features to further empower people and give them control over their financial situations.

## ECOSYSTEM

- Ecoin Debit Card\*
- Ecoin Token Tracker\*
- EcoinSwap (Dex)\*
- Ecoin MetaVerse\*

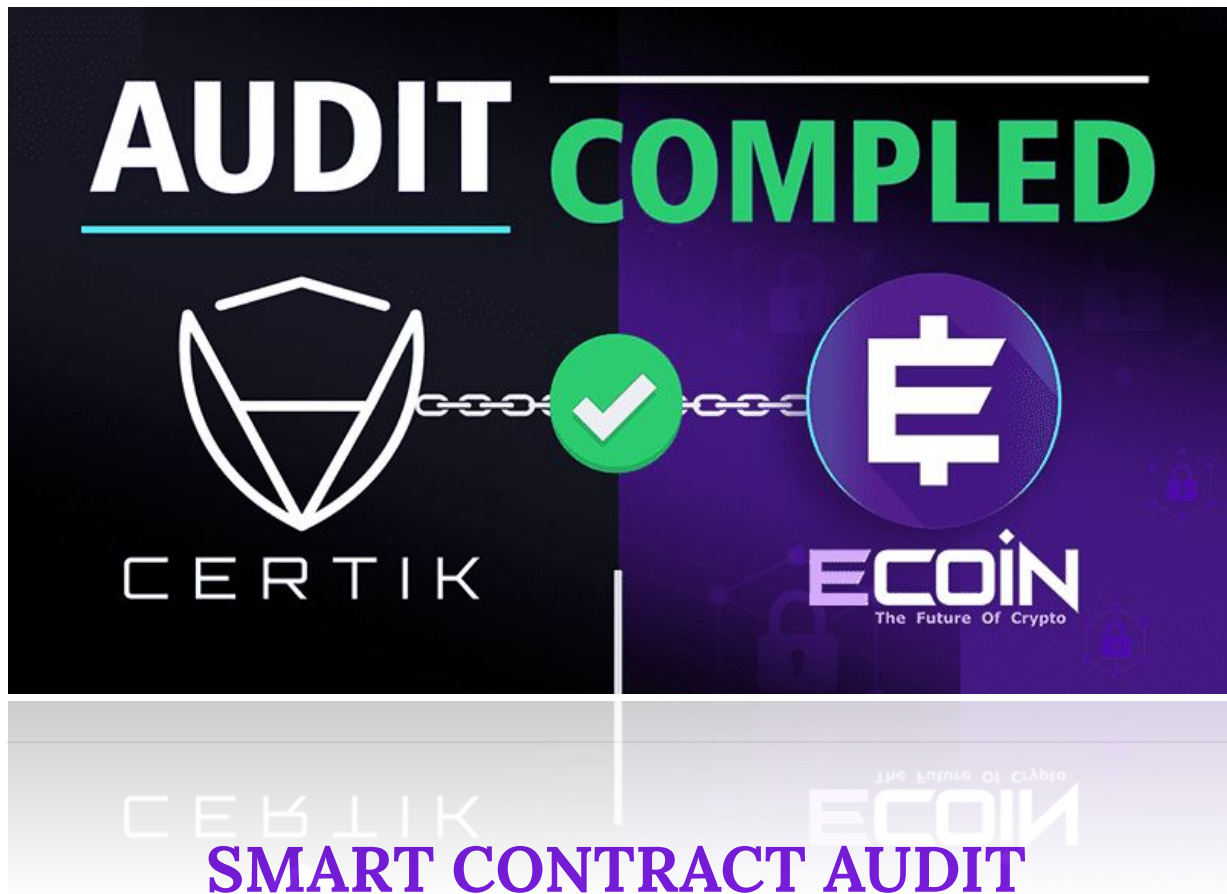

## SECURITY

**ECOIN V2** smart contract it's not a **Copy and Paste** as other tokens use, it was exclusively coded & developed for **Ecoin Finance** purpose.

For our ecosystem operation, the contract needs to be flexible about the fee, that's why contracts aren't non-adjustable and renounced contracts are just simply non-flexible.

We could now adjust fees without sacrificing security, as our contract has been incorporated a **hard limit** on how high we can set the rates.

ECOIN V2 was AUDITED by **CertiK**, Bringing security to our holders and attracting big investors. ([check here](#))

Our contract is **SAFE** and it was hard coded using the last version 0.8.13 of the Solidity.🔒

## LIQUIDITY LOCKED

The v2 **liquidity pool** (LP) has been **locked for 6 months**, and before the time expires, we will extend this period.

We locked the liquidity pool on [PinkSale](#), which is one of the best for liquidity locking and certified by [CertiK](#).

No Rug-pull.

**PinkSale**

## NFT's COLLECTION

We launched our exclusive animated NFT's collection at [Refinable](#) whose main objective is to direct all the amount received from sales destined to fundraising and finalize the development of the ECOIN token project.

### Also we created some benefits for those who buy the ECOIN NFT:

- ◆ They will be the first to test the Beta version of Wallet app when development is completed.
- ◆ Will receive a exclusive Debit Card after it is launched.

## DOXXED DEVs

Different of many projects, our DEVs are doxxed and active in the community. 🗝️
